  - C. FOR INFORMATION ONLY
  - D. REPORTS
- XI. ADDITIONAL BUSINESS

## **IX. UNIVERSITY CONSENT AGENDA**

### **A. ACADEMIC AFFAIRS**

1. President's Personnel Recommendations. Addendum IX-A-1
2. Approve the requests for outside employment at the University of Nebraska-Lincoln. Addendum IX-A-2
3. Approval the request for outside employment at the University of Nebraska Medical Center. Addendum IX-A-3

### **B. BUSINESS AFFAIRS**

#### Central Administration

1. Authorize the issuance and sale of Revenue Bonds, Series 2001, in an amount not to exceed \$23,000,000, by Nebraska Utility Corporation (NUCorp) at a public sale or a negotiated sale and at rates as determined by its Board of Directors, and authorize the execution of an Energy & Utility Service Agreement by the Vice President for Business and Finance. Addendum IX-B-1
2. Authorize the transfer of the shares of common stock of UNeMed Corporation owned by the University of Nebraska to the Nebraska Technology Development Corporation or any successor corporation thereof. Addendum IX-B-2
3. Approve Regents' Policy 1.7.1 relating to the custodian of Regents' records and Regents' Policy 1.7.2 relating to disposition and/or preservation of Regents' records. Addendum IX-B-3

#### University of Nebraska-Lincoln

4. Approve a supplemental Resolution providing for the inclusion of the Colonial Terrace Apartments complex as facilities under the Resolution of the Board dated December 1, 1964 and authorize the expenditure of \$60,000 from the 1986 Surplus Fund to make certain repairs and renovations to the Colonial Terrace Apartments. Addendum IX-B-4
5. Approve the budget for the Panhandle Research and Extension Center Elliot Building roof replacement project. Addendum IX-B-5
6. Authorize the Vice Chancellor for Business & Finance and the Director of Athletics of the University of Nebraska-Lincoln to complete negotiations and authorize the President of the University to approve a contract for a post season football game. Addendum IX-B-6

University of Nebraska Medical Center

7. Approve the purchase agreement for the Purchase of Real Estate located at 4224 Leavenworth Street, Omaha, Nebraska. Addendum IX-B-7

University of Nebraska at Omaha

8. Approve the purchase and installation of a replacement chiller for the UNO Central Utility Plant from Natkin Service in the amount of \$683,900. Addendum IX-B-8

Nebraska College of Technical Agriculture

9. Approve the Contract for the Purchase of Real Estate located in Frontier County, Nebraska. Addendum IX-B-9

President's Personnel Recommendations.  
December 8, 2001

University of Nebraska-Lincoln

Adjustment

William E. Splinter, Interim Dean (Special), College of Engineering and Technology, Professor Emeritus (Special), Biological Systems Engineering; appoint as Interim Dean College of Engineering and Technology effective 11/12/01, \$179,355 FY (includes \$3,600 FY administrative stipend), 1.00 FTE.

Leaves of Absence

Cecil Blake, Associate Professor (Continuous), Communication Studies; extension of leave without pay for an additional semester effective 01/02/02 to 05/17/02, \$67,471 AY current salary, 1.00 FTE.

Thomas G. Franti, Associate Professor (Continuous), Biological Systems Engineering; Faculty Development Fellowship with full pay effective 01/02/02 to 07/02/02, \$75,691 FY current salary, 1.00 FTE.

Roch E. Gaussoin, Associate Professor (Continuous), Agronomy and Horticulture; Faculty Development Fellowship with full pay effective 03/01/02 to 08/31/02, \$83,730 FY current salary, 1.00 FTE.

University of Nebraska at Omaha

Adjustment

Derek J. Hodgson, Vice Chancellor (Special), Academic Affairs and Dean (Special), Graduate Studies; Professor (Continuous) Chemistry effective 12/10/01, \$159,200 (includes \$5,000 administrative stipend), 1.00 FTE. Add title of Dean.

Leaves of Absence

William Blizek, Professor (Continuous), Philosophy/Religion; One quarter time leave of absence without pay, effective 01/02/02 to 05/17/02, \$67,813 AY, current salary, 1.0 FTE.

Angela Valle, Professor (Continuous), Foreign Languages; Half time leave of absence without pay, effective 01/02/02 to 05/17/02, \$60,780 AY, current salary, 1.0 FTE.

TO: The Board of Regents  
Academic Affairs

MEETING DATE: December 8, 2001

SUBJECT: Requests for Approval of Outside Employment

RECOMMENDED ACTION: Approval of the following requests to participate in activities outside the University in accordance with University policy as follows.

Sang M. Lee, Professor and Chair of Management, to provide consultation for Gallup Organization as a Senior Scientist.

Fred Luthans, Professor of Management, to provide consultation to Gallup Organization as a member of the Scientific Advisory Board and to provide editor responsibilities to the journals of Organizational Dynamics and Journal of World Business

PREVIOUS ACTION: Fred Luthans was involved as editor to the journals of Organizational Dynamics and Journal of World Business and as a member of the Scientific Advisory Board for Gallup Organization during the 2001 calendar year.

EXPLANATION: The requests by Sang M. Lee and Fred Luthans for approval of outside activity is in accordance with Section 3.4.5 (a) of the *Bylaws of the Board of Regents of the University of Nebraska* specifying that University employees must have the approval of the Board of Regents to accept retainer fees or other remuneration on a permanent or yearly basis.

Sang M. Lee is requesting permission of the Board of Regents to provide consultation to Gallup Organization as a Senior Scientist. These duties will begin January 1, 2002 and will be an ongoing activity. They will not interfere with Sang M. Lee's performance of his University duties and responsibilities.

Fred Luthans is requesting permission of the Board of Regents to provide consultation to Gallup Organization as a member of the Scientific Advisory Board and to provide editor responsibilities to the journals of Organizational Dynamics and Journal of World Business. These duties will begin January 1, 2002 and will be an ongoing activity. They

will not interfere with Fred Luthan's performance of his University duties and responsibilities.

Richard Edwards  
Senior Vice Chancellor for Academic Affairs

APPROVAL:

---

Harvey Perlman, Chancellor  
University of Nebraska-Lincoln

DATE:

November 9, 2001

TO: The Board of Regents

COMMITTEE: Academic Affairs

MEETING DATE: December 8, 2001

SUBJECT: Request for approval of outside employment.

RECOMMENDED ACTION: Approval of the following request to participate in activities outside the University in accordance with University policy as follows:

**COLLEGE OF NURSING**

Jeanne M. Bentz, MSN, Instructor, Kearney Division, to work at Hastings Regional Center as a Nurse Practitioner.

PREVIOUS ACTION: None.

EXPLANATION: This request for approval of outside activity is in accordance with Section 3.4.5 of the *Bylaws of the Board of Regents of the University of Nebraska* specifying that University employees (d) providing professional services for remuneration to departments or agencies of state government must have the approval of the Board of Regents.

Ms. Bentz is requesting permission of the Board of regents to work on an on-call basis during weekends as a Nurse Practitioner at the Hastings Regional Center, another state agency, during the period of December, 2001 through November 2002. For these efforts she will receive remuneration. This is Ms. Bentz' first request.

SPONSOR: William O. Berndt, Ph.D.  
Vice Chancellor for Academic Affairs

APPROVAL: \_\_\_\_\_  
Harold M. Maurer, M.D., Chancellor  
University of Nebraska Medical Center

DATE: November 9, 2001

TO: The Board of Regents  
Business Affairs

MEETING DATE: December 8, 2001

SUBJECT: Bond financing and Energy & Utility Service Agreement for Nebraska Utility Corporation

RECOMMENDED ACTION: 1) Authorize the issuance and sale of Revenue Bonds, Series 2001, in an amount not to exceed \$23,000,000, by Nebraska Utility Corporation (NUCorp) at a public sale or a negotiated sale and at rates as determined by its Board of Directors, and 2) authorize the execution of an Energy & Utility Service Agreement by the Vice President for Business and Finance or his designee.

PREVIOUS ACTION: June 23, 2001 – The Board authorized short-term borrowing not to exceed \$18,000,000 by NUCorp in the manner deemed most advantageous by the Board of NUCorp and authorized the expenditure by NUCorp of up to \$18,000,000 for utility related projects, capitalization of the corporation, capitalized interest, and working capital.

April 15, 2001 – The Board approved the Interlocal Agreement, Articles of Incorporation and By-Laws of the Nebraska Utility Corporation.

EXPLANATION: In the June 23, 2001 meeting, the Board of Regents approved a short-term borrowing by NUCorp with the understanding that any issuance of bonds would come back to the Board for its approval.

Since that time, interest rates relating to long-term borrowing have decreased and have become very attractive when compared to historical long-term rates. Accordingly, the NUCorp Board of Directors seeks to take advantage of those rates by issuing revenue bonds. The difference between the \$18,000,000 previously approved and the \$23,000,000 sought under this action primarily relates to bond reserve funds and issuance costs required as a normal part of any financing and capitalized interest.

The security for the bonds will be the revenue stream provided to NUCorp through the attached Energy & Utility Service Agreement. In executing the Energy & Utility Service Agreement, the Board covenants that it will make energy payments to NUCorp versus payments formerly made to external energy suppliers. The energy payments are roughly equivalent to those currently paid by the University of Nebraska-Lincoln.

Members of the public and news media may obtain a copy of the proposed agreement in the Office of the University Corporation Secretary, 3835 Holdrege Street, Lincoln, Nebraska 68583, between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, except University holidays.

PROJECT COST: \$23,000,000

SOURCE OF FUNDS: Borrowing by the Nebraska Utility Corporation

SPONSORS: Christine A. Jackson  
Vice Chancellor for Business & Finance

David E. Lechner  
Vice President for Business & Finance

APPROVAL: \_\_\_\_\_  
Harvey Perlman, Chancellor  
University of Nebraska-Lincoln

DATE: November 9, 2001

TO: The Board of Regents  
Business Affairs

MEETING DATE: December 8, 2001

SUBJECT: UNeMed Corporation

RECOMMENDED ACTION: Authorize the transfer of the shares of common stock of UNeMed Corporation owned by the University of Nebraska to the Nebraska Technology Development Corporation or any successor corporation thereof.

PREVIOUS ACTION: None.

EXPLANATION: UNeMed Corporation was formed in 1991 as a Nebraska for-profit corporation to assist the University of Nebraska Medical Center (UNMC) in the development and commercialization of biomedical technology invented or discovered at UNMC. All of its common stock is owned by the Board of Regents in the name of UNMC.

Approval of this agenda item will authorize the University administration to transfer the common stock of UNeMed from the University of Nebraska to the Nebraska Technology Development Corporation (NTDC) or any successor corporation thereof.

NTDC is a nonprofit corporation governed by a board of directors appointed by the President. It coordinates University technology transfer operations on a University wide basis, and acts as a holding company for the technology transfer enterprises serving the University's campuses. It is currently being reorganized as a new corporate entity for the purpose of obtaining qualification as an IRC § 501(c)(3) tax exempt nonprofit corporation. Thus, this agenda item also authorizes transfer of UneMed stock to the successor corporation of NTDC.

MEETING DATE: December 8, 2001

SUBJECT: Board of Regents' Records

RECOMMENDED ACTION: Approve Regents' Policy 1.7.1 relating to the custodian of Regents' records and Regents' Policy 1.7.2 relating to disposition and/or preservation of Regents' records.

PREVIOUS ACTION: August 20, 1973 - The Regents approved the Bylaws appointing the Corporation Secretary as the custodian of the records of the Board and all documentary files thereof.

EXPLANATION: University of Nebraska Central Administration adopted a records retention policy and schedule for its records on September 7, 2000. Board of Regents' records were not included in the Central Administration policy. It is proposed that the Board adopt a policy that allows the Corporation Secretary to set a records retention schedule in accordance with applicable law. Attached is a copy of the records retention plan and schedule that would be initiated with approval of the Regents' Policies below.

The text of the proposed Regents' Policies is as follows:

**RP 1.7 Records of the Board of Regents**

**RP-1.7.1 Custodian of Records**

The Corporation Secretary shall serve as the custodian of the records of the Board and all documentary files thereof. The Corporation Secretary shall be responsible for disposition and/or preservation of records of the Board.

**RP-1.7.2 Disposition and/or Preservation of Records**

Records shall be disposed of and/or preserved as set forth in a records retention schedule approved by the Corporation Secretary in accordance with applicable law.

# **UNIVERSITY OF NEBRASKA BOARD OF REGENTS' RECORDS RETENTION PLAN**

## **Purpose**

The University of Nebraska serves the citizens of the state and has a responsibility to preserve the history of the university for future generations. The goals of this records retention plan are:

- 1) to identify documents related to the Board of Regents that must be retained permanently or temporarily due to federal or state legal requirements or for valid administrative reasons;
- 2) to provide guidance and clarification on which documents have lasting archival value to the people of the state and should be preserved in the University Archives; and
- 3) to provide for the routine and timely disposal of documents which need not be retained for legal or administrative reasons and have no historical value.

## **Scope**

This plan applies to the records of the Board of Regents kept by the Corporation Secretary at the chief governing administrative unit of the University of Nebraska.

For the purpose of this plan a Board record is any paper, book, map, photograph, electronic file, original microfilm, cassette or video tape or other documentary material regardless of physical form or characteristics, made, produced, executed or received by the Corporation Secretary in connection with the transaction of Board of Regents University of Nebraska business.

## **Retention Schedule (attached)**

The attached schedule has guidelines for the appropriate retention of several types of records with regard to the Board of Regents. Records will be kept in the custody of the office of the Corporation Secretary. If, after consulting this plan and the schedule attached, there exists a question regarding the proper disposition or retention of a particular document or class of documents, it shall be the responsibility of the Corporation Secretary to determine the proper disposition of the item(s) in consultation with the Office of the Vice President and General Counsel for appropriate action.

## **Storage of records**

Records that are ready to be put in storage, based on the attached schedule, should be kept in the designated areas until the time that they are archived or disposed of. Records must be labeled using the procedures in effect at the time of storage, which will include, but are not limited to the subject, date created, department and disposition or archiving date.

## **Archival records**

Records created through Board activities are the property of the University of Nebraska. These include, but are not limited to: papers, correspondence, official printed material, minutes, committee files, financial and associated records in any form or format.

Inactive records that may be considered of historical or legal value which should be transferred to the University Archives in compliance with the records retention schedule include: agendas, minutes, handouts, resolutions, employee service awards, correspondence, voting records, and signed copies of agreements, leases, and contracts related to a Board of Regents meeting; correspondence relating to policies, procedures, and major transactions; and correspondence relating to certain topics of public interest and of historical value.

The University of Nebraska Archives, located and functioning on the University of Nebraska-Lincoln campus, shall be the repository of records of the University of Nebraska Board of Regents. The University Archives retains custody of the records after transfer. Use of the records by the transferring office must follow normal University Archives policies.

**Disposal of non-permanent records**

Examples of inactive records that may be discarded in compliance with the records retention schedule include: routine financial and administrative records such as requisitions; travel expense vouchers; accounting reports; drafts of reports or correspondence; routine acknowledgments such as notifications, requests, transmittals, multiple copies of a single document; convenience copies of publications; copies of widely distributed documents that have originated in other offices such as policies and procedures, files, and manuals; publications including announcements, newsletters, programs, brochures, and promotional literature.

Records will be disposed of based on the attached schedule by the Corporation Secretary. Sensitive, financial or confidential records should be shredded before disposal.

**UNIVERSITY OF NEBRASKA  
BOARD OF REGENTS'  
RECORDS RETENTION SCHEDULE**

<b>Document Type</b>	<b>Description</b>	<b>2001 minimum retention guidelines</b>
General correspondence	Routine correspondence and general inquiries, not addressed in other categories.	Retain two years, then dispose.
Issue specific correspondence	Correspondence related to certain topics of public interest that have generated correspondence from the public.	Retain two years, then review for disposal or archiving.
Administrative correspondence	Correspondence related to administration or development of policies, procedures, and major transactions.	Retain five years, when no longer of reference value evaluate for disposal or archiving.
Policy Manual and Bylaws		Retain one copy until superseded and dispose of when no longer of reference value. (Retain a current copy on the web.)
Working papers		Retain until no longer of reference value, then dispose.
Accounting records	Expense records which may include, but not limited to: detailed expenditure reports, expense vouchers, requisitions, reimbursement forms, warrant/voucher register, travel expense forms and related documents.	Retain five years, then dispose.
Board of Regents meeting minutes		Retain original copy permanently for five years on site at Central Administration, then archive. (Retain copies on the web.)
Board of Regents meeting agenda, documents, and reports	Agenda, handouts, resolutions, employee service awards, correspondence regarding the meeting, voting record, reports, signed copies of agreements, leases, and contracts.	Retain permanently for 25 years on site at Central Administration, then archive.
Board of Regents meeting audio recording cassettes	Audio tapes of Regent committee meetings and board meetings.	Retain two years, then evaluate for disposal or archiving.
Faculty academic freedom and tenure hearing records		Retain 10 years, then dispose or archive after review by the office of the Vice President and General Counsel.

Business Affairs

MEETING DATE: December 8, 2001

SUBJECT: Colonial Terrace Apartments Complex

RECOMMENDED ACTION: Approve a supplemental Resolution providing for the inclusion of the Colonial Terrace Apartments complex as facilities under the Resolution of the Board dated December 1, 1964 and authorize the expenditure of \$60,000 from the 1986 Surplus Fund to make certain repairs and renovations to the Colonial Terrace Apartments.

PREVIOUS ACTION: On September 11, 1972, the Board approved a right-of-entry agreement with the City of Lincoln to permit construction of a storm sewer on complex property.

EXPLANATION: Colonial Terrace Apartments complex was acquired from the Colonial Terrace Corporation in 1956. The facilities include 32 two-bedroom apartment units and four three-bedroom units located near the University of Nebraska-Lincoln East Campus. The apartments are administered by the Division of University Housing and are used for student family housing. Rental rates have been adequate over the years to provide the normal operation and maintenance as well as modest renewal and replacement. The facility is currently in need of modernization and repair.

The attached resolution makes the Colonial Terrace Apartments complex a part of the facilities under the 1964 Bond Resolution and provides confirmation of that commitment by the Board of Regents. Accordingly, revenues derived from the facility are pledged for the retirement of revenue bonds, and funds to repair and maintain the Colonial Terrace Apartments Complex will be provided through the revenue bond program.

PROJECT COST: \$60,000

SOURCE OF FUNDS: 1986 Student Fees and Facilities Revenue Bond Surplus Fund

## RESOLUTION

BE IT RESOLVED by the Board of Regents of the University of Nebraska (the "Board") as follows:

- Section 1. Definitions: In addition to words and terms elsewhere defined herein, all words and terms used in this Supplemental Resolution (the "Supplemental Resolution") which are defined in the Resolution of the Board adopted effective December 1, 1964 (the "1964 Resolution") as from time to time amended and supplemental (collectively, the "Bond Resolution") shall for all purposes of this Supplemental Resolution have the meanings specified in the Bond Resolution.
- Section 2. Findings and Determinations: The Board hereby finds and determines:
- a). The Colonial Terrace Apartments complex consists of four duplex and seven four-plex apartment units, located at 3320-22, 3330-32-36-38, 3340-42, 3344-46-48-50, 3400-02-06-08, 3301-03-07-09, 3315-17, 3323-25-27-29, 3333-35, 3345-47-53-55, 3401-03-07-09 Starr Street. Situated near the East Campus of the University of Nebraska-Lincoln, these units are owned and operated by University Housing and leased primarily to students at the University of Nebraska-Lincoln who require family housing.
  - b). The Colonial Terrace Apartments complex is the type of facility specified in Section 85-403 of the Act and is a facility from which the Board has and will derive revenues, fees and earnings.
  - c). The Board has owned and operated the Colonial Terrace Apartments for at least two years prior to the date of adoption of this Supplemental Resolution as a part of an institution of higher learning.
  - d). It is necessary, desirable, advisable and in the best interest of the Board that the revenues, fees and earnings of the Colonial Terrace Apartments be subjected to the lien of the Bond Resolution and that the Colonial Terrace Apartments become a part of the Facilities as defined in the Bond Resolution.
  - e). As set forth in the Certificate of the Board specified in Subsection 2(b) below, in the opinion of the Board, the revenues, fees and earning to be derived by the Board from the operation of the Colonial Terrace Apartments during each of the five Fiscal Years next succeeding the date of adoption of this Supplemental Resolution will be at least equal to 1.10 times the estimated costs of Operation and Maintenance of the Colonial Terrace Apartments during each of such years, such estimates being based on the Board's experience in operating comparable buildings and facilities and on its schedule of rates, fees and charges now in effect.
  - f). Section 6.2 of the Bond Resolution requires the Board to keep the "Facilities" in good repair, working order and condition and to make all necessary and proper repairs, renewals, replacements, additions, extensions and betterments thereto. Section 6.12 of the 1964 Resolution also requires the Board to comply with all statutes of the State of Nebraska.

- g) The Colonial Terrace Apartments require certain renewals, replacements, additions, betterments and equipment in order to (i) operate efficiently, (ii) maintain the revenues, fees and earnings herein pledged under the Bonds Resolution, (iii) maintain the Facilities as revenue-producing enterprises and (iv) meet all applicable health and safety code provisions of the State, the City of Lincoln, Nebraska and the Board.
- h) In order to accomplish such renewals, replacements, additions, betterments and acquisitions of equipment, the sum of \$60,000 should be expended from the 1986 Surplus Fund as indicated on the attached schedule.

Section 3. Actions: The Board hereby approves and orders the following:

- a) All of the revenues, fees and earnings to be derived by the Board from the ownership and operation of the Colonial Terrace Apartments shall be subject to the lien and pledge of Article III of the Bond Resolution, such revenues, fees and earnings shall be paid to the Bond Fund Trustee as provided in Article III of the Bond Resolution and shall be a part of the Revenues, and the Colonial Terrace Apartments shall be deemed to be part of the Facilities.
- b) The Board requests that (a) the opinion of counsel required by Subsection 8.1.8(i) of the Bond Resolution be delivered to the Bond Fund Trustee, (b) the certificate of the Certified Public Accountants required by Subsection 8.1.8(ii) of the Bond Resolution be delivered to the Bond Fund Trustee, and (c) the certificate of the Board required by Subsection 8.1.8(iii) of the Bond Resolution containing (I) the estimates of revenues, fees and expenses and (II) costs of Operation and Maintenance of the Colonial Terrace Apartments be delivered to the Bond Fund Trustee.
- c) To provide funds to pay the costs of renewals, replacements, additions, betterments and equipment with respect to the Colonial Terrace Apartments, there shall be and there is hereby ordered set aside in the 1986 Surplus Fund the amount of \$60,000 which amount shall be retained therein and allocated and disbursed by the Bond Fund Trustee as directed by the Vice Chancellor for Business and Finance of the University of Nebraska-Lincoln, or the Assistant Vice Chancellor of Business and Finance and Director of Fiscal Affairs, upon an order stating that (i) the obligations in the amount specified therein have been incurred by the Board, (ii) each item thereof is a proper and reasonable charge of such renewals, replacements, additions, betterments and equipment and (iii) such amount has not theretofore been authorized to pay the costs of such renewals, replacements, additions, betterments and equipment.

Section 4. Effective Date. The effective date for the Colonial Terrace Apartments complex to be one of the Facilities under the December 1, 1964 Bond Resolution shall be December 31, 2001.

MEETING DATE: December 8, 2001

SUBJECT: Purchase of Real Estate

RECOMMENDED ACTION: Approve the purchase agreement for the Purchase of Real Estate located at 4224 Leavenworth Street, Omaha, Nebraska.

PREVIOUS ACTION: None.

EXPLANATION: The real estate consists of a commercial structure consisting of 3,085 square feet adjacent to the UNMC campus as shown on the attached map. The purchase price is \$122,500. The facility will be demolished and the property utilized for parking for UNMC employees.

Acquisition of this property will allow UNMC to acquire space within the Master Plan that will serve as parking until it can be developed in accordance with the Master Plan.

The property has been appraised. An environmental site assessment has been completed.

Members of the public and the news media may obtain a copy of the proposed Contract for the Purchase of Real Estate in the Office of the University Corporation Secretary, 3835 Holdrege Street, Lincoln, Nebraska 68583, between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday, except University holidays.

MEETING DATE: December 8, 2001

SUBJECT: Purchase of Replacement Chiller for UNO Central Utility Plant

RECOMMENDED ACTION: Approve the purchase and installation of a replacement chiller for the UNO Central Utility Plant from Natkin Service in the amount of \$683,900.

PREVIOUS ACTION: None.

EXPLANATION: This chiller will replace two worn out chillers in the Central Utility Plant. The existing chillers have reached the end of their useful life and are in need of replacement. Maintenance costs on the existing chillers have become excessive and the cost to rebuild these units would exceed the cost of this more energy efficient replacement.

Funding is being recommended by the LB309 Task Force subject to the Governor's approval. This funding requires 20% matching funds. Due to a six-month waiting period, the order must be placed as soon as possible to complete installation for next summer's air conditioning season.

Competitive bids were received from five vendors. The bid of \$683,900 from Natkin Service was the lowest responsible bid.

PROJECT COST: \$683,900.

MEETING DATE: December 8, 2001

SUBJECT: Purchase of Real Estate

RECOMMENDED ACTION: Approve the Contract for the Purchase of Real Estate located in Frontier County, Nebraska

PREVIOUS ACTION: None.

EXPLANATION: Since March 1996, NCTA has leased the subject property from J. Clyde and Ruth A. Johnson. Acquiring ownership of the property will provide NCTA students with learning experiences in the latest agronomic technologies, including crop irrigation, fertilization, and chemigation. The purchase will allow the University to avoid lease payments of approximately \$16,000 per year.

The property consists of approximately 161.68 acres, more or less, of irrigated farm ground and irrigation equipment lying within Section 20, Township 8 North, Range 28 West of the 6<sup>th</sup> P.M. in Frontier County, Nebraska. The property immediately adjoins the existing NCTA farm, maintaining quality student access to the farm laboratory.

The appraised value of the property is \$154,000 and the irrigation equipment is \$9,600. The purchase price is within an acceptable range of the appraised value. An environmental site assessment is pending.

Members of the public and the news media may obtain a copy of the proposed Contract for the Purchase of Real Estate in the Office of the University Corporation Secretary, 3835 Holdrege Street, Lincoln, Nebraska 68583, between the hours of 8:00 a.m. and 5:00 p.m. Monday through Friday, except University holidays.

2. Approve the extension of the University's license agreement with SAP and approve financing through the Master Lease Program. Addendum X-B-2

University of Nebraska Medical Center

3. Approve the Program Statement and Budget for the renovation of research laboratories and laboratory support space in the 4230 Building on the UNMC campus in Omaha. Addendum X-B-3

Additional Item – Central Administration

4. Approve the budget deficit request for the Nebraska College for Technical Agriculture. Addendum X-B-4

TO: The Board of Regents  
Business Affairs

MEETING DATE: December 8, 2001

SUBJECT: Purchase of Computer Hardware utilizing the Master Lease Program

RECOMMENDED ACTION: Approve the purchase of computing capacity utilizing the Master Lease Program.

PREVIOUS ACTION: January 16, 1999 – The Board approved the purchase of additional computing capacity.

EXPLANATION: The technology demands of users in the University community continue to increase. University-wide SAP, Student Information Systems at UNL and UNO, budget and other critical systems rely on the same mainframe environment for computing support. The number of users, coupled with increasing transactions and records has surpassed the systems' rated capacity. The current system, acquired in 1999, now runs consistently at 90% or more of available capacity. Normal operations should see the system working at 60-70%, which would yield better response times and provide capacity for unexpected user demand peaks. Without the added capacity, the system will be inadequate to support all of the functions needed in administrative and academic computing.

The estimated cost includes hardware costs of approximately \$800,000, with the remainder of the cost being licensing payments to vendors to allow movement of operating systems to the new computer, one-time costs associated with the migration, and software maintenance fees.

This action would also allow the Vice President for Business & Finance to utilize the Master Lease Program to finance this purchase.

ESTIMATED COST: \$1,400,000

DATE: November 13, 2001

TO: The Board of Regents  
Business Affairs

MEETING DATE: December 8, 2001

SUBJECT: Extension of SAP License Agreement utilizing the Master Lease Program

RECOMMENDED ACTION: Approve the extension of the University's license agreement with SAP and approve financing through the Master Lease Program.

PREVIOUS ACTION: September 5, 1997 – The Board approved the software license agreement for the purchase of SAP.

EXPLANATION: The Board of Regents, in 1997, approved the purchase of the SAP software system for use in University-wide administrative computing. The contract provides for an annual maintenance fee. Maintenance fees (annual usage fees) are fixed at a percentage of the current market price of the product. For that payment, the University is allowed a certain number of user licenses (named persons who can use the product). Within the allowed licenses, users are allowed differing latitudes of access to the system. Any usage in excess is subject to additional charges by the software provider. Our original agreement is set to expire on March 31, 2003.

The implementation of SAP has progressed to a point where the number of licenses and types of licenses needs to be increased and reconfigured. In addition, SAP's strategic development direction has shifted since our original contract was put in place in 1997, with enhancements concentrating on web-based access which puts needed information on a users desktop. This enhanced user interface is known as MySAP.com©.

SAP, in exchange for extending the contract before the end of calendar 2001, has agreed to expand our license to include the MySAP.com functionality. Additionally, concessions on back license fees would be made while future maintenance fees would be locked in for a multi-year period yielding an overall savings to the University versus continuing the current contractual arrangement and its escalating cost.

This action would also allow the Vice President for Business & Finance to utilize the Master Lease Program to finance a portion of this enhancement over the life of the license extension.

ESTIMATED COST: \$1,500,000

SOURCE OF FUNDS:	Master Lease Financing	\$1,000,000
	CSN Operating Funds	500,000

SPONSORS: Michael D. Justus  
Assistant Vice President for Business & Finance

Walter G. Weir  
Chief Information Officer

David E. Lechner

APPROVAL: \_\_\_\_\_  
L. Dennis Smith  
President

DATE: November 13, 2001

TO: The Board of Regents  
Business Affairs

MEETING DATE: December 8, 2001

SUBJECT: Program Statement for the 4230 Building Research Laboratories  
Renovation

RECOMMENDED ACTION: Approve the attached Program Statement and Budget for the renovation  
of research laboratories and laboratory support space in the 4230  
Building on the UNMC campus in Omaha.

PREVIOUS ACTION: None

EXPLANATION: UNMC's success in expanding biomedical research has nearly filled to  
capacity the entire supply of laboratory space on campus. Current  
recruiting commitments, the space requirements of a federal grant award  
to expand a large existing research program and space required to  
implement research funded by the Tobacco Settlement Biomedical  
Research Development program will require additional laboratory space  
well before the completion of the new Research Center of Excellence  
building provides additional capacity in late 2003.

The project will partially satisfy the projected laboratory deficit by  
renovating approximately 33,000 gross square feet of existing space on  
Level 2 of the 4230 Building to provide additional research laboratory  
modules, associated offices and laboratory support space. Work will  
include adding building utility infrastructure and building systems to  
meet current codes and standards, including: fire protection, plumbing,  
lighting, power, HVAC, windows and general construction.

PROJECT COSTS: \$7,000,000

SOURCE OF FUNDS: College of Medicine Research Development Fund

SPONSOR: Donald S. Leuenberger  
Vice Chancellor for Business & Finance

APPROVAL: \_\_\_\_\_  
Harold M. Maurer, M.D., Chancellor  
University of Nebraska Medical Center

DATE: November 13, 2001

**Project Title:** 4230 Building – Research Laboratories  
**Date:** November 7, 2001  
**Campus:** University of Nebraska Medical Center  
**Prepared by:** UNMC Facilities Management and Planning

## **UNIVERSITY OF NEBRASKA MEDICAL CENTER PROGRAM STATEMENT**

### **I. GENERAL INFORMATION AND SITE LOCATION**

#### **A. Project Description**

The University of Nebraska Medical Center (UNMC) proposes to renovate approximately 33,000 gross square feet containing 28,700 net square feet of space on Level 2, of the 4230 Building, located on the UNMC Campus. The area to be renovated is currently leased to Nebraska Health Systems and houses service vehicles and records storage. Approximately 20,000 net square feet of space will be converted into an anticipated 16 research laboratory modules and support space. An additional 8,700 net square feet will be renovated for use as investigator offices, conference rooms, restrooms and circulation space.

The 4230 Building was originally constructed to house an Omaha Public Power District operations center and includes extensive garage areas designed with high ceilings and heavy structural capacity to accommodate large service vehicles. The floor loading capacity and ceiling heights in the garage areas of the 4230 Building are similar to those required for research labs and therefore make those portions of the building well suited for renovation into a research facility.

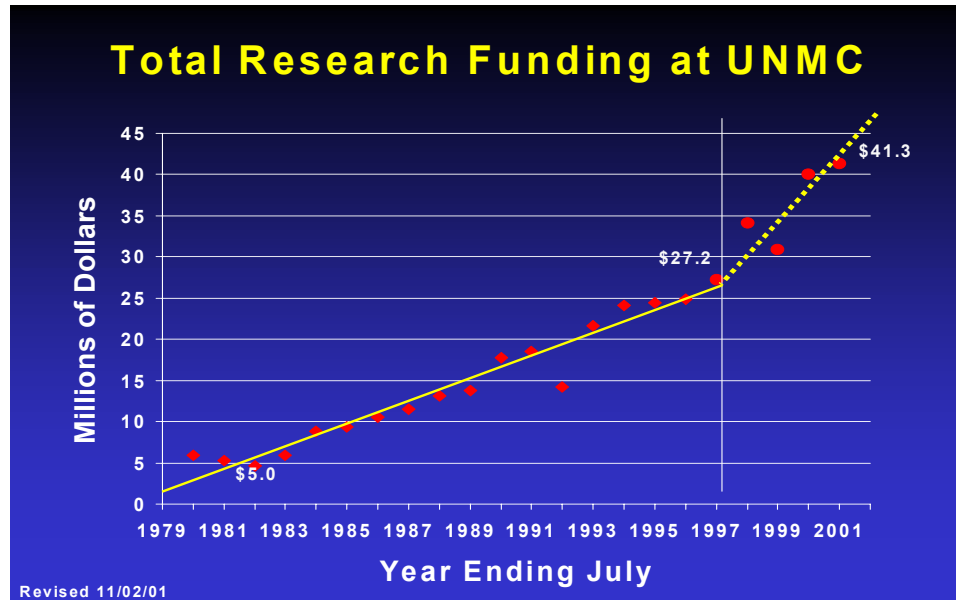

#### **B. Summary of Major Project Goals and Objectives**

The goal of this project is to provide additional biomedical research laboratories for the UNMC College of Medicine required for recruiting and providing laboratories for the additional funded investigators necessary to achieve UNMC's strategic objective to grow research and to fulfill current research commitments.

#### **C. Project Need and Justification**

UNMC is focused on a strategic goal to double externally funded research activity on the campus within five years and triple it in ten years. The increased emphasis on research growth has resulted in an increased rate of research growth as illustrated by the following graph:

C. Project Need and Justification,  
Continued

Over the past two years, UNMC's research funding from external sources has increased by 38 percent moving from \$30.0 million annually to \$41.3 million. Plans to sustain or accelerate the rate of growth are being implemented. At this point in time the only significant impediment to sustaining the rate of growth is the availability of research labs. UNMC's success in increasing research has resulted in an acute shortage of laboratories despite rigorous reallocations of space based on research merit. While the Research Center of Excellence (RCE) building will provide excellent state-of-the-art facilities to facilitate recruitment when it is completed in late 2003, it will not be available to meet short-term requirements. Additional labs are needed and proposed for construction to bridge the gap and to provide for projected needs beyond those to be served by the RCE. A partial list of research initiatives contributing to the lab shortage includes the following:

- (1) Five new clinical department chairs have recently been appointed. To solidify the College of Medicine's support for achieving the strategic research goal, each of the new appointees has been charged with the responsibility of developing a significant research presence on campus. Appropriate plans are in place to recruit additional clinical and basic science investigators. The shortage of labs to house the new recruitments will put UNMC at a considerable recruiting disadvantage or at best delay plans. At present, the recruitment of individual NIH-funded investigators has been a challenge based on space limitations alone.
- (2) The Tobacco Settlement Biomedical Research Program will further aid in promoting the UNMC research enterprise, recruitments are in progress in the fields of eye research and organ and tissue transplantation immune system research. The tobacco settlement is also likely to be associated with time sensitive re-assessment of our use of funds so that limitations in recruitment based on the availability of research space would be detrimental to both the legislature's goals and our own.

- (3) Center for Neurovirology and Neurodegenerative Diseases (CNND) has been awarded an NIH renovation grant that will require a reduction in available labs to accommodate construction. In addition to this opportunity, expansion of the

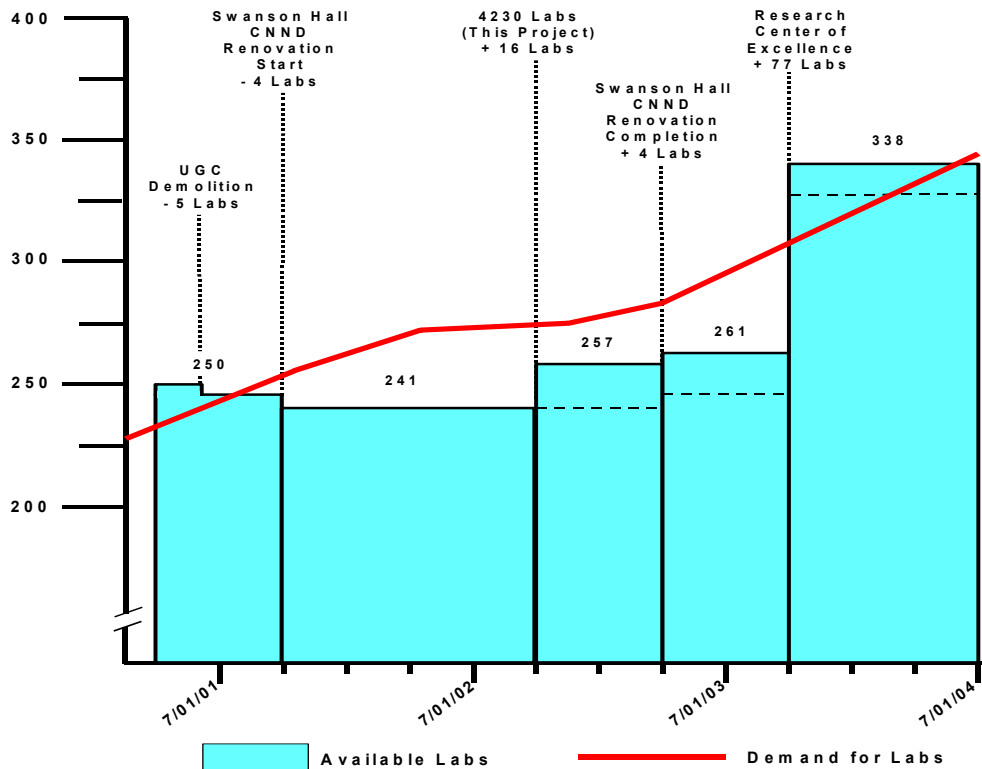

**C. Project Need and Justification, Continued**

CNND due to extensive funding growth will require relocation of other programs from existing lab space.

A recent review of research space use within the College of Medicine and on the UNMC campus indicates that only a fraction of the space needed to accomplish strategic goals would become available as a result of reassignment, remodeling existing labs or other space recovery options.

The following graph compares the UNMC laboratory capacity, assuming the implementation of the proposed project, with the previously described demand for laboratory space over the short term and illustrates the current shortfall in research labs:

**UNMC RESEARCH LAB CAPACITY and DEMAND**

Prior to the initiation of the Research Center of Excellence (RCE) project in April 2000, UNMC occupied the equivalent of approximately 250 research laboratories on campus with approximately 44 of those being in substandard condition and in critical need of replacement. The demolition of the University Geriatrics Center to provide a site for the RCE has reduced the number of available labs. Renovation planned to facilitate the expansion of existing funded research programs described above will further reduce the

number of available labs over the short term. Although the RCE project will both replace the demolished and substandard labs and provide a net addition of 72 labs, construction will not be completed in time to satisfy current demand. The additional labs proposed for construction will help satisfy demand prior to completion of the RCE and serve the needs of the campus well into the future.

**D. Information About Similar Projects at Peer Institutions.**

Research laboratory modules, offices and laboratory support spaces for the proposed project will be similar to those planned for the Research Center of Excellence, which was extensively benchmarked by the research lab consultant for that project

**E. Summary of the Background and History of the Project**

The Board of Regents approved the purchase of an Omaha Public Power District building, now identified as the 4230 Building, on February 28, 1999. Two subsequent program statements to renovate portions of Levels 2 & 3 of the building into office space were approved by the Board of Regents on January 15, 2000 and June 17, 2000. The Board Regents has taken no previous action related to this project.

**F. Master Plan Compliance**

The project site, located on the perimeter of the UNMC Campus, west of the intersection of 42<sup>nd</sup> and Leavenworth Streets is identified in the 1997 UNMC Facilities Master Plan as a future location for support service functions. The site, however, is only about one block from the core of the campus and is also well located for research functions.

**G. Describe Other Alternatives Considered**

Other locations were considered for the research laboratories, including additions to Swanson Hall and the Munroe-Meyer Institute. After analysis of each location option, the proposed location was identified to be, the most economical option and the only option that could be completed in the time frame necessary to meet research goals. It is also the most suitable of available existing buildings for conversion to long-term laboratory occupancy. Portable modular labs were also considered and rejected due to the high cost of extending the required utilities infrastructure required the lack of a suitable site as well as the need for permanent rather than temporary laboratories.

**H. Physical and Functional Facility Deficiencies**

In addition to the construction of laboratories, utility services will be extended to the building from the campus central utility plant, energy code requirements, life safety code and ADA compliance issues, and building envelope improvement needs will be addressed.

**I. Cost to Renovate Vacated Space (if applicable)**

Not applicable

**J. Replacement Cost (for renovation projects only)**

Cost to replace the building shell based on a three story, brick office building of 54,000 gross square feet with an exterior perimeter of 1,220 linear feet would be approximately \$8,100,000 at \$150 per square foot.

**K. Site Location**

The location for the proposed project is on level 2 of the 4230 Building at the University of Nebraska Medical Center, Omaha, Nebraska.

**II. ANALYSIS OF FACILITY REQUIREMENTS**

**A. Total Net Square Footage by Categorical Room Code**

	<u>Use Code</u>	<u>Net Sq. Ft.</u>
Laboratory Office and Support Space	250	20,000
Conference Area	350	1,100
Restrooms	RRR	700
Circulation	WWW	6,400
<u>Mechanical Area</u>	YYY	<u>500</u>
Total Net Square Feet		28,700

**B. Building Information**

1. General space included in the building -- (See item A above)
2. Net Square Feet: 28,700
3. Gross Square Feet: 33,000
4. Building Efficiency: 87% (net/gross ratio)

**III. BUDGET**

**A. Statement of Probable Costs**

Budget Category 1:	Construction costs	\$6,275,000
Budget Category 2:	Non-construction costs	\$ 725,000
	Total Project Costs	<u>\$7,000,000</u>

**B. Unit Cost Data**

Construction cost equals \$190.15 per gross square foot  
(Includes inflation to midpoint)

Total project cost equals \$212.12 per gross square foot (\$7,000,000)

**C. Fiscal Impact**

The estimated annual operation and maintenance cost for the proposed facility is \$5.50 per square foot for a total of \$181,500.

**IV. FUNDING INFORMATION**

**A. Funding**

Total funds required \$7,000,000

The proposed source of funds is from the College of Medicine

**B. Cash Flow Requirements**

FY 2001 – 2002 - \$3,000,000  
FY 2002 – 2003 - \$4,000,000  
\$7,000,000

**V. PRELIMINARY TIMELINE**

Program Statement Approval	December 08, 2001
RFP's out to A/E's	December 10, 2001
Receive RFP's from A/E's	December 28, 2001
A/E Selection	January, 2001
Schematic Design Complete	February, 2001
Design Development Complete	April, 2002
Construction Documents Complete	May, 2002
Construction Bids Received	June, 2002
Start of Construction	June, 2002
Mid-Point of Construction	September, 2002
Completion of Construction	December, 2002

**VI. CCPE REVIEW**

CCPE Review is not required.

**VII. RECOMMENDED METHOD OF CONTRACTING**

The proposed method of construction contracting is conventional low bid. Bidding conditions in the Omaha construction market are currently favorable and are expected to remain favorable during the time frame when this project will be bid. Additionally, the pre-construction services offered by the construction manager at risk approach would add minimal value to this project due to its similarity to other recent laboratory projects on campus.

TO: The Board of Regents  
Business Affairs

MEETING DATE: December 8, 2001

SUBJECT: Budget Deficit Request for the Nebraska College for Technical  
Agriculture

RECOMMENDED ACTION: Approve the budget deficit request.

PREVIOUS ACTION: None.

EXPLANATION: In December 2001, the Nebraska College of Technical Agriculture at  
Curtis (NCTA) will be closing on the sale of 161 acres of property that  
will be utilized for the irrigation and fertilizer technology programs at  
NCTA. The University and NCTA have negotiated a purchase price of  
\$182,000 on this property (see Addendum IX-B-9).

The Governor and Legislature appropriated \$224,437 in Capital  
Construction funds for the purchase of this property. After closing costs,  
NCTA estimates \$39,500 of unspent funds will remain.

NCTA proposes that the \$39,500 of unspent Capital Construction funds  
be transferred to their Operating funds to help offset a \$45,850 operating  
budget deficit that was brought forward from the past fiscal year. The  
deficit was the result of tuition revenues not meeting expectations in FY  
2000-01 due to lower than expected enrollments.

Accordingly, this deficit request is not a request for new dollars, but a  
request to transfer funds appropriated to NCTA from Capital  
Construction to Operating. None of the \$39,500 will be added to the  
budget base or create future year obligations.

If this request is approved by the Board, the request will be forwarded to  
the Governor for consideration.

PROJECT COST: None (Fund Transfer)

3. Report of Gifts, Grants, Contracts and Bequests for the period ended September 30, 2001. Addendum X-D-3
4. Report of Bids and Contracts for the period ended November 9, 2001.  
Addendum X-D-4

TO: The Board of Regents  
Academic Affairs

MEETING DATE: December 8, 2001

SUBJECT: Personnel Actions for the period July - September 2001

RECOMMENDED ACTION: Report

PREVIOUS ACTION: On December 10, 1994, the Board of Regents amended Section 3.2 of the Bylaws of the Board of Regents to delegate to the President, or administrative officers designated by the President, authority to make appointments in the Academic-Administrative staff to faculty positions and to administrative positions below the rank of Dean and equivalent ranks. Executive memorandum No. 13 subsequently delegated authority to the Chancellors to make Academic-Administrative appointments below the level of Dean. Such appointments at the rank of assistant professor or above are required by the Bylaws of the Board of Regents to be reported to the Board after each quarter and maintained on file as a public record in the Office of the Corporation Secretary.

EXPLANATION: A series of reports of campus personnel actions approved by each Chancellor during the 3<sup>rd</sup> quarter of 2001 are attached.

APPROVAL: \_\_\_\_\_  
Lee B. Jones  
Executive Vice President and Provost

TO: The Board of Regents  
Business Affairs

MEETING DATE: December 8, 2001

SUBJECT: Naming a theater in the Mary Riepma Ross Film Theater the “Joseph H. Cooper Theater.”

RECOMMENDED ACTION: Report

PREVIOUS ACTION: None.

EXPLANATION: President Smith and Chancellor Perlman have approved naming one of the film theaters in the Mary Riepma Ross Film Theater for Joseph H. Cooper.

Joseph H. Cooper was an emigrant from Russia who, as a young man, worked in the New York City movie industry. He eventually developed a chain of theaters in Nebraska, Colorado and Oklahoma. Since its inception on December 14, 1937, the Cooper Foundation has awarded nearly \$11 million in grants supporting the arts, human services, and the humanities throughout the State of Nebraska. The Cooper Foundation recently provided a grant of \$200,000 to support the construction of the Mary Riepma Ross Film Theater.

In recognition of the gift from the Cooper Foundation and Joseph Cooper’s involvement with the commercial theater industry as well as the establishment of The Cooper Foundation, the larger of the two film theaters in the Mary Riepma Ross Film Theater will be named the “Joseph H. Cooper Theater.”

PROJECT COST: None.

SOURCE OF FUNDS: None.

SPONSOR: Christine A. Jackson  
Vice Chancellor for Business & Finance

APPROVALS:

\_\_\_\_\_  
Harvey Perlman, Chancellor  
University of Nebraska-Lincoln

\_\_\_\_\_  
L. Dennis Smith  
President

TO: The Board of Regents

Business Affairs

MEETING DATE: December 8, 2001

SUBJECT: University of Nebraska Medical Center  
Report of Gifts, Grants, Contracts and Bequests  
Accepted during the Quarter July 1, 2001 through September 30, 2001

RECOMMENDED ACTION: Report

Description	<b>A</b> <b>Gifts</b>	<b>B</b> <b>Grants</b>	<b>C</b> <b>Bequests</b>	<b>D</b> <b>Contracts</b>	<b>TOTAL</b>
Instruction	\$58,107	\$641,993	\$0	\$210,079	\$910,089
Research	49,595	13,324,665	0	917,503	14,291,763
Public Service	5,752	787,973	0	893,884	1,687,609
Student Aid	25,665	30947	0	0	56,612
Other	<u>0</u>	<u>0</u>	<u>0</u>	<u>44,268</u>	<u>44,268</u>
Subtotal	\$139,119	\$14,785,578	\$0	\$2,065,734	\$16,990,341

Awards of \$400,000 and more previously accepted by the Regents during the reported quarter:

Instruction	0	0	0	0	0
Research	0	0	0	0	0
Public Service	0	0	0	0	0
Student Aid	0	0	0	0	0

Daiichi	Head & Neck Cancer Research	4,800
The Weller Foundation Inc.	Miscellaneous Scholarships	2,900
UNMC Faculty Women's Club	Miscellaneous Scholarships	11,265
Dura Pharmaceuticals	Cancer Center Grand Rounds	2,500

**UNIVERSITY OF NEBRASKA MEDICAL CENTER**  
**CONTRACTS \$100,000 AND OVER**  
**July 1, 2001 To September 30, 2001**

<b>SPONSOR</b>	<b>GRANTEE DEPARTMENT</b>	<b>PURPOSE</b>	<b>AMOUNT</b>
Forest Laboratories	Burke, William, M.D. Psychiatry	This is a clinical trial to investigate the safety and efficacy of a new pharmacologic agent in the treatment of mild to moderate Alzheimer's disease. Previous studies have indicated this novel treatment could provide symptomatic improvement in patients with mild to moderate Alzheimer's disease without the various gastrointestinal side-effects often encountered with standard drug therapies.	\$288,000
University of Virginia	Cavalieri, Ercole, Ph.D. Eppley Institute	This project deals with research aimed at understanding the role of aromatase over-expression in the origin of breast cancer.	\$120,000
St. Luke's-Roosevelt Institute for Health Sciences	Gendelman, Howard, M.D. Pathology/Microbiology	This work explores how HIV-1 induces immune impairments in the brain and the barrier that surrounds and protects it from injury. More importantly, these results will aid in the development of new therapeutics to protect against or ameliorate the devastation the AIDS virus elicits in brain tissue. This project, in part, utilizes human fetal tissue and represents a continuation of a previously funded grant.	\$266,986
St. Luke's Roosevelt Institute for Health Sciences	Ghorpade, Anuja, Ph.D. Pathology/Microbiology	This research will supply brain tissues from autopsy, animal and/or fetal sources to investigators within the program project HIV-1 encephalopathy. Ongoing programs in the UNMC neuroscience center include a murine animal model of HIV encephalitis, a well developed/organized brain bank facility, and the isolation, cultivation and experimentation of brain tissues/cells from a variety of mammalian sources critical to the overall brain research efforts in HIV-1 encephalopathy. This project, in part, utilizes human fetal tissue and represents a continuation of a previously funded study.	\$115,064

**UNIVERSITY OF NEBRASKA MEDICAL CENTER**  
**CONTRACTS \$100,000 AND OVER**  
**July 1, 2001 To September 30, 2001**

University of Nebraska - Lincoln	Ikezu, Tsuneya, M.D., Ph.D. Pathology/Microbiology	This project represents a new investigator initiative in the Center of Biomedical Research Excellence [COBRE] grant held by Dr. Charles Wood at UNL. It fosters the independent development of new research programs in Nebraska Center for Virology and promotes continued collaboration in virology, particularly HIV studies.	\$110,058
Cato Research, Ltd	Iyer, Kishyore, MBBS, FRCS Surgery	This is a Phase III clinical study to evaluate safety and efficacy factors in the administration of subcutaneous recombinant human growth hormone as a co-therapy for patients with short-bowel syndrome and who are reliant on intravenous paraenteral nutrition [tube feeding].	\$345,870
Novartis Pharmaceuticals Corporation	Langnas, Alan, M.D. Surgery	Following kidney transplantation, approximately 25% of patients may experience delayed graft function. Standard anti-rejection medications taken by transplant recipients often have harmful effects on the kidneys. Two investigational immunosuppressive drugs, FTY and RAD, are less harmful to the kidneys and are being tested for safety and preliminary effectiveness in this population.	\$238,336
SuperGen, Inc	Pavletic, Steven Z., M.D. Internal Medicine- Oncology/Hematology	This is a Phase II clinical trial of the safety and efficacy of Pentostatin in patients with chronic graft-versus-host disease [GVHD]. So far, Pentostatin is a drug that has shown promise in interrupting the progression of GVHD. GVHD is a syndrome where immune cells from a transplant donor attack the recipients normal tissue following bone marrow transplant. GVHD is frequently fatal and better treatments are needed.	\$140,000
University of Nebraska - Lincoln	Persidskii, L.V, M.D., Ph.D. Pathology / Microbiology	This project represents a new investigator initiative in the Center of Biomedical Research Excellence [COBRE] grant held by Dr. Charles Wood at UNL. It fosters the independent development of new research programs in Nebraska Center for Virology and promotes continued collaboration in virology, particularly HIV studies.	\$184,271

**UNIVERSITY OF NEBRASKA MEDICAL CENTER**  
**CONTRACTS \$100,000 AND OVER**  
**July 1, 2001 To September 30, 2001**

Schering Plough Research Institute	Rennard, Stephen, M.D. Internal Medicine- Pulmonary	This clinical trial will evaluate the safety and efficacy of mometasone furoate dry powder inhaler in patients with Chronic Obstructive Pulmonary Disease. This drug is a corticosteroid that when delivered through a dry powder inhaler has previously been shown to produce low systemic concentrations of less than one percent.	\$120,703
Medicines for Malaria Venture	Vennerstrom, J. L., Ph.D. College of Pharmacy	This work is focused on the identification of a potent orally active antimalarial compound to treat drug-resistant malaria. This is a joint research effort between UNMC, the Swiss Tropical Institute, F. Hoffmann-LaRoche, and Monash University.	\$642,589
University of Nebraska - Lincoln	Zheng, Jialin, M.D. Pathology / Microbiology	This project represents a key project in the Center of Biomedical Research Excellence [COBRE] grant held by Dr. Charles Wood at UNL. It fosters the independent development of new research programs in Nebraska Center for Virology and promotes continued collaboration in virology, particularly HIV studies.	\$232,135

**UNIVERSITY OF NEBRASKA MEDICAL CENTER**  
**GRANTS \$100,000 AND OVER**  
**July1, 2001 To September 30, 2001**

<b>SPONSOR</b>	<b>GRANTEE DEPARTMENT</b>	<b>PURPOSE</b>	<b>AMOUNT</b>
DHHS/NIH/NEI	Ahmad, Iqbal, Ph.D. Ophthalmology	The main objective of the project is to understand the biology of the stem cells found in the mammalian eye. The information emerging from this study will be useful in stem cell therapy to treat retinal degeneration. No human materials are employed.	\$257,907
DHHS/NIH/NCRR	Armitage, James O. M.D. College of Medicine	This grant supports the alteration and renovation of a portion of Swanson Hall to update and better organize the space occupied by eight faculty members of the Center for Neurovirology & Neurodegenerative Disorders [CNND]. The renovation will upgrade the BL3 laboratory, the electrophysiology laboratory, as well as other laboratories to improve safety, research efficiency, program integration and scientific dialogue between investigators.	\$1,383,369
DHHS/NIH/NIGMS	Carlson, Mark, M.D. Surgery	This project will investigate the regulation of cells known as fibroblasts, primary cells involved with complications in healing and scarring. Control over fibroblast survival during healing may allow clinicians to minimize the negative effects of scarring such circumstances as burn wounds and cirrhosis.	\$106,174
DHHS/NIH/NIDDK	Carmines, Pamela K., Ph.D. Physiology/Biophysics	The purpose of this project is to detail the cellular events involved in hormonal control of the renal microvasculature, both under normal conditions and during the early stage of insulin-dependent diabetes mellitus. These studies will focus on regulation of membrane potential and intracellular calcium concentration in vascular smooth muscle cells.	\$176,975
DHHS/NIH/NCI	Cavalieri, Ercole L., Ph.D. Eppley Institute	The first goals of this phase of the project are to 1) demonstrate that Catechol Estrogen-3, 4-Quinones are initiators of breast and prostate cancers, and 2) determine possible bio-markers for risk of developing these cancers.	\$764,299
DHHS/NIH/NCI	Chan, Wing C., Ph.D. Pathology/Microbiology	This is a multi-institutional effort to unravel the unique abnormalities in tumor cells that govern the clinical behavior and responsiveness of lymphoma to treatment. Modern techniques that can demonstrate the gene expression pattern and genetic abnormalities of tumor samples will be utilized.	\$971,185
U.S. Army	Chan, Wing C., Ph.D. Pathology/Microbiology	This study will investigate methods for clarifying the role of EBV [Epstein-Barr Virus] in breast cancer tissues. This research may ultimately lead to the development of novel methods of detection, treatment and even prevention strategies for breast cancer.	\$143,119
DHHS/NIH/NIAAA	Clemens, Dahn L., Ph.D. Internal Medicine-GI	It has been known for some time that the breakdown of ethanol causes liver damage. However, the specific mechanism by which ethanol metabolism creates this result is not known. The focus of this study is to investigate the effects of ethanol metabolism on the livers' ability to respond to epidermal growth factor.	\$105,882

**UNIVERSITY OF NEBRASKA MEDICAL CENTER**  
**GRANTS \$100,000 AND OVER**  
**July1, 2001 To September 30, 2001**

<b>SPONSOR</b>	<b>GRANTEE DEPARTMENT</b>	<b>PURPOSE</b>	<b>AMOUNT</b>
NE DHHS - LB595	Cowan, Kenneth H., M.D., Ph.D. Eppley Institute	This is a cancer center support grant which provides a base of financial support for the research and educational programs for the UNMC Eppley Cancer Center.	\$1,300,000
DHHS/NIH/NCI	Cowan, Kenneth H., M.D., Ph.D. Eppley Institute	This is a cancer center support grant which provides a base of financial support for the research and educational programs of the UNMC Eppley Cancer Center.	\$1,408,378
DHHS/NIH/NICHD	Davis, John S., Ph.D. OB/GYN	Ovarian steroids play a prominent role in the regulation of women's health, including bone mineralization and cardiovascular disease. This research design will identify the molecular mechanisms responsible for relaying the actions of insulin-like growth factor-I (IGF-I) and gonadotropins in ovarian granulosa cells. Knowledge of these signaling mechanisms is critical to understanding the regulation of fertility and ovarian steroidogenesis.	\$221,745
DHHS/NIH/NCI	Diehl, J. Alan, Ph.D. Eppley Institute	Overexpression of cyclin D1 occurs frequently in cancer due to gene amplification, chromosomal translocation, or protein stabilization. This study is to elucidate the mechanisms that modulate cyclin D1 activity and cyclin D1/CDK subcellular localization. Our experiments will address the oncogenic capacity of cyclin D1 proteins that bypass normal cellular controls that determine its cell cycle-dependent subcellular localization.	\$242,090
Leukemia Society of America	Greiner, Timothy, M.D. Pathology/Microbiology	Post-transplant lymphoproliferative disorders [PTLD] are atypical expansions and cancers [lymphomas] of white blood cells which occur after people receive organ transplants. We will study the gene expression of the PTLD tumors using over 17,000 gene prints. Our goal is to determine why patients survive with these PTLD tumors and to identify the reasons why the B-cell expansions develop into lymphomas.	\$108,000
DHHS/NIH/NIAID	Ikezu, Tsuneya, M.D., Ph.D. Pathology/Microbiology	This program is focused on the function of a novel transcriptional factor, NEBR1/OTK18, on human immunodeficiency virus-1 (HIV-1) replication in human macrophages. We propose to elucidate its function on HIV-1 life cycle and the molecular mechanism of DNA recognition and its gene induction by HIV-1.	\$135,513
DHHS/NIH/NIDCR	Johnson, Keith R., Ph.D. College of Dentistry	More than 90% of human cancers are of the epithelial tissues which are called carcinomas. Frequently, the primary tumor is not life threatening; rather, some of the cells have invaded and spread to other sites in the body. This study investigates why carcinoma cells can become invasive and metastatic.	\$227,223

**UNIVERSITY OF NEBRASKA MEDICAL CENTER**  
**GRANTS \$100,000 AND OVER**  
**July1, 2001 To September 30, 2001**

<b>SPONSOR</b>	<b>GRANTEE DEPARTMENT</b>	<b>PURPOSE</b>	<b>AMOUNT</b>
DHHS/NIH/NCI	Kabanov, Alexander, Ph.D. College of Pharmacy	Poly(ethylene oxide) and poly(propylene oxide) block copolymers (Pluronic or "poloxamer") have been shown to sensitize resistant tumors, resulting in an increase in the cytotoxic activity of anthracyclines by 2 to 3 orders of magnitude. The mechanisms of sensitization are not well understood. The objective of this proposal is to determine the mechanisms through which pluronic block copolymers sensitize the drug resistant cancer cells.	\$231,099
DHHS/NIH/NIA	Keller, Brenda Kay, M.D. Internal Med-Geriatrics	This study examines the relationship between vision and functional decline in frail, elderly outpatients and nursing home residents. It examines factors known to affect functional status, such as memory and physical illness, and adds a detailed assessment of visual function including acuity, contrast sensitivity, glare disability stereo acuity, peripheral and color visions.	\$105,300
DHHS/NIH/NIDDK	Lane, Pascale H., M.D. Pediatrics Nephrology	The pre-puberty years of Type I diabetes appear to be protected from nephropathy [kidney damage] and other micro-vascular complications normally associated with this disease. In this project we will investigate the role of male sex hormones in the development of diabetic nephropathy via a number of biological changes in a rat-model of this disease process.	\$323,002
U.S. Army	Lockridge, Oksana, Ph.D. Eppley Institute	The goal of this project is to find a way to protect people from the toxic effects of pesticides. The plan is to deliver a pesticide scavenger that binds and inactivates toxic compounds. The new therapeutics will be tested in cell culture and in mice.	\$411,742
U.S. Army	Lockridge, Oksana, Ph.D. Eppley Institute	The goal of this study is to find a scientific basis for physical symptoms reported by those exposed to low doses of pesticides. Our hypothesis is that unknown biological agents bind low doses of pesticides. We will identify these unknowns.	\$196,602
DHHS/NIH/NIA	Ma, Ying, Ph.D. Munroe-Meyer Institute	This study is designed to examine the potential important role(s) of tyrosine kinase receptors during reproductive aging. The results from these experiments may provide new insights into the mechanisms underlying the central changes that lead to the loss of reproduction during aging.	\$169,823
DHHS/AHCPR	Mueller, Keith J., Ph.D. Preventive/Societal Medicine	This project will contribute to ongoing debates concerning changes in the Medicare program. By testing hypotheses predicting the pattern of adopting managed care plans in rural countries, investigators are testing the policy approach of relying on managed care and competitive markets to redress perceived financial problems in the program.	\$107,650
DHHS/HRSA	Mueller, Keith J., Ph.D. Preventive/Societal Medicine	The RUPI (Rural Policy Research Institute) Center for Rural Health Policy Analysis is an <i>analytical center</i> in the portfolio of research centers supported by the federal Office of Rural Health Policy. The mission of the Center is to provide timely analysis, based on the best available research (including original research from the Center), to federal and state health policy makers.	\$603,670

**UNIVERSITY OF NEBRASKA MEDICAL CENTER**  
**GRANTS \$100,000 AND OVER**  
**July1, 2001 To September 30, 2001**

<b>SPONSOR</b>	<b>GRANTEE DEPARTMENT</b>	<b>PURPOSE</b>	<b>AMOUNT</b>
DHHS/NIH/NIAID	O'Dell, James, M.D. Internal Medicine- Rheumatology	Rheumatoid arthritis is a chronic disease that causes substantial tissue damage. Currently, there is no information that enables the physician to prescribe the best possible therapy for each individual. Therefore, the intent of this proposal is to determine which clinical markers would predict the best therapy for each patient.	\$252,000
DHHS/NIH/NINDS	Patel, Kaushik P., Ph.D. Physiology/Biophysics	This study tests the hypotheses that disrupted nitric oxide and <i>gamma</i> -amino butyric acid (GABA) mechanisms within the para-ventricular nucleus contribute to altered sympathetic outflow from the heart in diabetic patients.	\$210,132
DHHS/NIH/NIDCR	Payne, Jeffrey, DDS College of Dentistry	The primary purpose of this five-year clinical trial is to determine whether low-dose doxycycline (LDD) reduces alveolar (oral) bone density loss in postmenopausal women who have reduced bone mass in the hip or spine (osteopenia) and who are not on hormone replacement therapy. LDD effects on periodontal disease progression and progressive bone loss of the hip and spine also will be examined.	\$459,015
DHHS/NIH/NIAID	Persidskii, Yuri, M.D., Ph.D. Pathology/Microbiology	Viral penetration through the blood-brain barrier and infection of brain macrophages appears necessary but not sufficient for the development of HIV encephalitis and its associated dementia. Researchers will test the hypothesis that specific neurotropic viral strains can produce changes in brain function. Newly developed animal models for HIV-1 encephalitis and blood-brain barrier systems in vitro will be used to find whether particular viral strains induce changes in macrophage function that lead to brain damage. This project uses, in part, human fetal tissue. It represents a continuation of a previously funded grant.	\$102,200
US Army	Ramaprasad, Subaraya, M.D.  Radiology	This DOD supported project will use magnetic resonance imaging [MRI] of experimental tumors in mice to evaluate the potential for treatment of such cancers with photosensitizing drugs and laser light exposure. Successful development of this model may lead to new approaches to treat some forms of human cancer.	\$191,295
DHHS/NIH/NHLBI	Rennard, Stephen, M.D. Internal Medicine-Pulmonary	The structural elements of the lung are altered in diseases such as asthma and COPD. As a result of these changes in lung structure, function is compromised. This study will investigate the biochemical and cellular mechanisms that lead to alteration in lung structure. Understanding these mechanisms can lead to treatment to alter the progressive nature of these diseases which, unfortunately, often are relentlessly progressive despite the best currently available treatments.	\$255,500
DHHS/NIH/NHLBI	Rosenquist, Thomas H., Ph.D.  Cell Biology & Anatomy	Atherosclerosis is the factor underlying heart attacks and strokes. One component of atherosclerosis is uncontrolled growth of smooth muscle cells (SMC) that compose most of the wall of the arteries. Our experiments show that growth of SMC's is inhibited by a kind of drug, called "NMDA" receptor blockers. This unexpected result means that it may be possible to inhibit atherosclerosis by a new route that does not involve cholesterol or blood pressure.	\$343,364

**UNIVERSITY OF NEBRASKA MEDICAL CENTER**  
**GRANTS \$100,000 AND OVER**  
**July1, 2001 To September 30, 2001**

<b>SPONSOR</b>	<b>GRANTEE DEPARTMENT</b>	<b>PURPOSE</b>	<b>AMOUNT</b>
DHHS/NIH/NHLBI	Rosenquist, Thomas H., Ph.D. Cell Biology and Anatomy	This three-project research program tests the way that improper nutrition, drugs and environmental exposures may interact with selected genes, to induce congenital heart defects. The expected result is improved ways to predict which women are most likely to deliver babies with heart defects.	\$987,652
DHHS/NIH/NHLBI	Rozanski, George J., Ph.D. Physiology/Biophysics	The pathogenic process called electrical remodeling is a key factor underlying the increased incidence of life-threatening arrhythmias in patients with chronic heart failure. The purpose of our research project is to explore endogenous, repair pathways that can reverse electrical remodeling of heart cells and that may be effective therapeutic targets to prevent arrhythmias in the failing heart.	\$246,433
DHHS/NIH/NIDDK	Salbaum, J. Michael, Ph.D. Munroe-Meyer Center for Human Molecular Genetics	The goal of this research project is to identify the control elements that regulate the activity of a number of genes in a cluster on Chromosome 15, including three novel genes that were recently discovered at UNMC during the development of tissues of the genitourinary tract.	\$147,500
DHHS/NIH/NCI	Shull, James D., Ph.D. Eppley Institute	The main purpose of this study is to characterize the effect of energy restriction on the ability of 17B-estradiol (E2) to induce lactotroph cell proliferation and promote development of PRL-producing pituitary tumors in the F344 rat.	\$314,556
DHHS/NIH/NIAAA	Sisson, Joseph, M.D. Internal Medicine-Pulmonary	This study examines how alcohol makes lung mucous-clearing cells unresponsive to normal stimulation by "turning off" key molecules that control mucus clearance. Our findings are providing new insight into the role that alcohol plays in causing bronchitis, pneumonia and lung cancer.	\$325,552
DHHS/NIH/NIAAA	Tuma, Dean J., Ph.D. Internal Medicine - G.I.	These studies continue to explore the possibility that the covalent binding of acetaldehyde to hepatic proteins during the ethanol oxidation may be the basis of the toxic effects of this aldehyde and contributes to ethanol-induced liver injury.	\$242,528
DHHS/NIH/NCRR	Turpen, James B, Ph.D. Cell Biology/ Anatomy	This grant supports the development of a statewide, Biomedical Research Infrastructure Network [BRIN] led by UNMC in collaboration with UNL and Creighton University. The main purpose of the program is to encourage the continued professional development of undergraduate students in the biomedical sciences, particularly in the area of genomics. Students and science faculty from five primarily undergraduate institutions [UNL, UNK, Chadron, Wayne and Wesleyan] will be the initial participants in the program with the intent to bring in additional schools in future years.	\$1,999,178

**UNIVERSITY OF NEBRASKA MEDICAL CENTER  
GRANTS \$100,000 AND OVER  
July1, 2001 To September 30, 2001**

<b>SPONSOR</b>	<b>GRANTEE DEPARTMENT</b>	<b>PURPOSE</b>	<b>AMOUNT</b>
DHHS/NIH/NCNR	Walker, Susan Noble, Ed.D. College of Nursing	The purpose is to evaluate the effectiveness of an intervention to encourage midlife and older rural women to eat less fat and more fiber and to engage regularly in moderate intensity physical activity as well as in activities that enhance muscular strength, endurance and flexibility.	\$424,350
DHHS/NIH/NIGMS	Wheelock, Margaret J., Ph.D. College of Dentistry	The overall goal of this project is to understand the assembly of the cadherin / catenin complex and the role these proteins play in cellular morphology and behavior.	\$307,408

TO: The Board of Regents  
Business Affairs

MEETING DATE: December 8, 2001

SUBJECT: Monthly Report of Bids and Contracts

RECOMMENDED ACTION: Report.

PREVIOUS ACTION: None.

EXPLANATION: The attached report is a summary of bids and contracts as provided by the campuses pursuant to Section 6.4 of the *Bylaws of the Board of Regents of the University of Nebraska* for the period ended November 9, 2001.

The report outlines the following: type of action; campus; description and use of the product, service, or project; funding source; approved budget amount; contract amount; contractor or vendor; and a bid review or bid explanation if the low responsible bid was not accepted.

PROJECT COST: None.

SOURCE OF FUNDS: None.

APPROVAL: \_\_\_\_\_  
David E. Lechner  
Vice President for Business & Finance

DATE: November 9, 2001

Type of Action	Campus	Description	Funding Source	Approved Budget Amount	Contract Amount	Contractor/ Vendor	Explanation
Construction Contract	UNL	Institute for Agriculture & Natural Resources. Construction of a new Resource Building at the Cedar Point Biological Station.	NSF, Restricted Trust & Operating Funds	\$ 482,000	\$ 366,200	Mike Smith Construction	Lowest responsible bidder.
	UNMC	Construction of Emile Street Parking Structure.	Private Funds & Revenue Bonds	\$ 19,257,000	\$ 15,890,000	Hawkins Construction	CM at Risk Agreement.
	UNMC	Construction of Research Center.	Private Funds & Revenue Bonds	\$ 77,000,000	\$ 60,785,417	Hawkins Construction	CM at Risk Agreement.
	UNMC	Electrical Control System Integration for East Utility Plant Project.	Revenue Bonds & Revolving Funds	\$ 11,825,000	\$ 275,000	H.K. Scholtz Co.	Sole Source: Compatible with existing software and equipment.
	UNMC	Parking Structure Lot 4, Level D Slab Repair.	Campus Parking Reserve	\$ 180,000	\$ 158,800	Western Waterproofing	Sole Source - Emergency Repairs.
	UNMC	Campus Distribution Upgrade for East Utility Plant Base Bid #3.	Revenue Bonds and Revolving Funds - NHS Receivable	\$ 11,825,000	\$ 518,589	Penn-Co Construction, Inc.	Lowest responsible bidder.
Personal Property Procurement	UNMC	Phase Five Telephone Migration Upgrade.	Information Technology Services - Telecommunications	\$ 173,795	\$ 173,795	IP Revolution	Sole Source: Equipment is compatible with existing equipment.
