IntelliCom Consulting, Inc.
2006 Walter Scott Entrepreneurial Award Winner

IntelliCom was founded in 1994 by University of Nebraska-Lincoln graduate, Dan Shundoff. Today, IntelliCom employs 28 people and has grown to be the largest and most successful technology provider in Central Nebraska. Headquartered in Kearney, IntelliCom serves a geographic area that includes 66 communities in Central and Southwestern Nebraska but also has customers all across the United States. IntelliCom’s services include, network engineering, helpdesk, web-hosting and design, IP telephony, cabling and wireless, security, disaster recovery, hardware/software sales, and technical training. Typical clients include small to mid size businesses that do not employ their own technical staff and large enterprise organizations that need specialized expertise for a particular project. IntelliCom's customer base includes medical clinics, the financial industry, construction companies, manufacturing firms, city and county government, and schools among others.

IntelliCom has formed an incredibly strong partnership with the University of Nebraska at Kearney in the area of technology. Specifically, the company has worked with the university to provide multiple internships for students interested in pursuing a career in information technology. To date, there have been 22 individuals participate in the internship program at IntelliCom. Even more staggering is the fact that 11 of these former interns are employed with IntelliCom today in highly skilled, paid positions. The partnership has afforded the business the ability to grow and subsequently has allowed for the creation of job opportunities in the high tech industry that otherwise would not have existed in Central Nebraska.

The company has experienced 300 percent growth over the past five years and has expanded to a include a second office located in Grand Island. Within the last year, IntelliCom has achieved Microsoft Gold Certified Partner status, a designation reserved for the top two percent of Microsoft partners in the world. In addition, the company is a Cisco Premier partner and a member of Cisco’s SMB Select partner program that caters to small and mid-size businesses.
Walter Scott Business Entrepreneurial Award

The Walter Scott Entrepreneurial Business Award is designed to encourage businesses with a presence in Nebraska to create partnerships and links with the university in the area of technology. The award is given annually by the President of the University of Nebraska. The award winner receives $10,000 to be used for the promotion and/or creation of multiple student work experiences in the fields of information science, technology, and engineering.
